

CANADIAN DEMOGRAPHICS

Get the most complete source of demographic information on Canadian markets – in your choice of electronic version or book format. Use the undisputed guide of choice for marketers since 1925.

Whether you are looking for general background information, developing strategies, preparing business plans, selecting new sites, evaluating existing outlets, FP Markets – Canadian Demographics delivers the data you need.

INFORMATION ON MORE THAN 1,200 CANADIAN MARKETS with statistics on population, households, income, retail sales, labour force, occupations by major groups, schooling, housing, marital status, home language, household expenditures, industrial development contacts and more!

PLUS

- 60 PSYTE HD Canada Cluster segments
- 16 PSYTE HD Financial Cluster segments
- Estimates of disposable and discretionary income
- Household liquid assets
- R.L. Polk Canada, Inc. Parc data and new vehicle registrations

PSYTE HD Canada cluster information is a powerful market segmentation system that classifies 60 mutually exclusive neighbourhood types based on demographics, purchasing behaviours and other socio-economic elements. Also included are 16 PSYTE HD Financial clusters that group together neighbourhoods with similar demographic and financial characteristic.

FP MARKETS ELECTRONIC VERSION allows you to investigate virtually every market across the country in a matter of minutes. The electronic version offers the fastest, most efficient way to select, retrieve and sort the data you need.

- Advanced search queries allow you to cross-reference and focus on the data that meet your specifications.
- Print just the information you require, or save it to your own hard drive, without the possibility of manual errors.
- Extensive estimated data on 692+ census subdivisions.

- Graphical Analysis gives you a visual display of specific data in charts or graphs making it easier to interpret your search results.
- Available in both National and Regional* formats so that you may zero in on specific areas of interest.

*Choose one or more of the following regions: British Columbia/Territories, Prairie Provinces, Ontario, Québec, Atlantic Provinces.

FP MARKETS IN PRINT provides demographic information on virtually every market across the country with a detailed index and glossary of terms, bold heading and large type for easy navigation. Plus, get shopping centre information, newspaper circulation figures, radio and tv data and comprehensive maps.

All data is **UPDATED** for the 2011 edition and includes 2 and 5 year projections for populations, income and retail sales.

INCLUDES PROFILES OF:

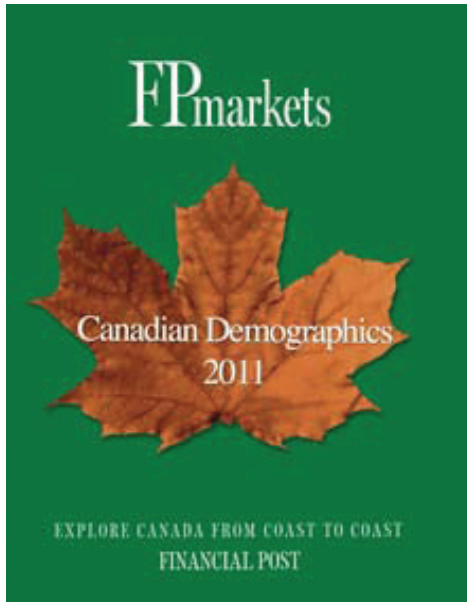

- 33 metropolitan areas
- 76 economic regions
- 111 census agglomerations
- 692 census subdivisions
- 288 census divisions
- Plus coverage on all of Canada, its territories and provinces.

RESEARCHERS

All the information you require at your fingertips. Discover how many females in Cranbrook, British Columbia work in medicine and health or access the 2013 projected retail sales estimates for Montreal.

ENTREPRENEURS

It's much easier to prepare business plans, scout new sites and evaluate existing ones with this all-in-one guide to Canadian demographics. Take the guesswork out of retail targeting and know where your products and services will reap the best returns!

ADVERTISERS

Which cities have the largest number of women in their early 30s with above average annual incomes? Whatever your needs, FP Markets provides insight into customer preferences and makes accurate media buying much easier.

MARKETERS

With the PSYTE HD Canada Cluster segments information, you can target prospects based on similarities in purchasing behaviours and other socio-economic elements. PSYTE is an effective support tool for all aspects of marketing including direct mail, potential market rankings, media planning and zeroing in on those customers who are most likely to remain loyal.

TREND SETTERS

Whether you're in manufacturing, economic development, communications or consulting, FP Markets helps you get into the right markets first by knowing where your products and services are in demand.

EDUCATORS

With FP Markets, students will gain an understanding of consumer diversity across the country. Research any area as it relates to socio-economics and marketing, including projections for retail sales and population.
