Person Name
A search for 'John Smith' will also retrieve 'John F. Smith' or 'John Frederick Smith'.

Company Name

Current Position Previous Position Either

Simple Search allows you to search for a person by their name, and for people working in specific companies. You may search for executives or Directors in their current positions, previous positions, or both.

If you only know the person's last name, you may conduct a search with this information. However, if the name is very common, you may retrieve multiple results. If you have information about the company that employs the individual, please consider filling in the company field in addition to the surname before you search.

You can also use the * (asterisk) symbol to truncate names. For example, if you are unsure if the last name of the person you are seeking is Roberts or Robertson, enter the last name as Roberts*. Please do not truncate initials.
